LEARN

STAR WORDS On Epiphany Sunday everyone received a word for 2019. As the Star guided the Wise Men to Bethlehem, God can use your star word to guide you this year. Your star may lead to prayer or written reflection or art or action. Share your word with family and friends and see what insights they have. God frequently speaks to us through others. Be on the look out for writing/reflection prompts above the water fountain across from the Information Center and on social media each month. We'd love to publish your written musings on your Star Word; please send them to Sara Ferebee, Director of Communications, at sara@stpaulchurchky.org. If you need a Star for yourself or someone who doesn't come to St Paul, just pick one up at the Information Center or from the bulletin board near McAdams Hall.

RESILIENCE: THE BIOLOGY OF STRESS & THE SCIENCE

OF HOPE is a film highlighting the effects of toxic stress and the importance of building resilience. Join us on January 16th in McAdams Hall for a screening of the film to learn how stress can affect children's developing brains and how supportive adult caregivers can buffer those deleterious effects. Explore how we, as Christ's ambassadors, can build resilience in our church and community. More information on this film can be found at <https://kpirfilms.co/resilience/> Dinner will be served at 6 pm. Film will start at 6:30 with discussion from 7:30 until 8 pm. Please RSVP to church office, 502-459-1595 or by filling out a Connection Card. For more information, contact Julia Mitchell at julialanemitchell@gmail.com.
