

## **In-person worship & activities - Updated June 1, 2021 Worship**

In response to the changing guidelines from many sources, we are adjusting our activities.

- We're asking congregation members to continue to wear masks in worship and while in the church buildings. We want to give a little more time for children to be vaccinated. Small groups and Sunday school classes can meet unmasked while in their meeting spaces, but individuals should continue to wear masks at all other times in the church buildings.
- Let's sing together! Hymnals will be returned to the sanctuary pews. We would like to encourage congregational singing with a mask.
- We will no longer limit the worship service to 100 or organize our worship spaces for social distancing. Hand sanitizing stations and masks will still be made available on Sundays.
- We'll continue to use prepackaged Communion elements.
- Our worship schedule will change soon, as outlined below.
